Unit Test Report – Shapes Calculator

1. Objective

Identify issues with child classes inheriting from the abstract Shape class, including:

- Validation of input
- Calculation accuracy

2. Test Summary

All unit tests were run through VS Code, utilising the MSTest framework.

3. Test Results

All unit tests passed without issue, as shown below.

```
namespace ShapeCalculatorUnitTests;

// ... (Test Results) ...

Test Run Summary
Total Tests: 20
Passed: 20
Failed: 0
Skipped: 0
Result: SUCCEEDED
Total Time (including build): 1.81s (1808ms)
```

4. Defects

No defects identified.

5. Conclusion

Each class derived from the abstract Shape parent is working as intended. No bugs were identified at this time.
